

Allaire Community Farm Wish List 2019

Allaire Community Farm is a sanctuary where passionate people make an impact on their community by creating an encouraging environment that fosters healing and hope. We are an animal rescue with a mission of inclusion. Our goal is to utilize our rescued animals and working farm environment to “Nurture through Nature” special needs individuals, “at risk” populations, veterans with PTSD, and local families battling cancer. We accomplish this mission through programs, events, and outreach throughout the year that focus on animal therapy, equine therapy, organic gardening, vocational training and self-esteem building.
